What Makes Montessori Education Different from Regular Preschool

Standard preschool models often rely on group instruction, rote learning, and fixed timetables. The Montessori method works differently. Children choose their activities within a structured environment, move at their own pace, and develop independence from as early as age two.

Child-Led Learning vs. Teacher-Led Instruction

A Montessori classroom is intentionally calm. Materials are placed at child height. Teachers guide rather than direct. This approach builds concentration, fine motor skills, and a genuine love of learning — qualities that serve children well into primary school and beyond.

How to Evaluate Montessori Schools in Kanjurmarg

Not every school that uses the word "Montessori" actually follows the method. Before shortlisting any preschool, ask these specific questions:

- Are teachers formally trained in Montessori methodology?
- Does the school offer structured phonics instruction alongside Montessori activities?
- What is the adult-to-child ratio in each classroom?
- How does the school assess progress without formal exams?

Parents from Kanjurmarg often travel a short distance to Bhandup East for Infant Jesus Pre School because the answers to these questions are consistently strong. Montessori schools in Kanjurmarg vary considerably in their actual implementation — so asking the right questions protects your child's early education.

Jolly Phonics and Early Literacy: A Non-Negotiable Advantage

Reading readiness does not happen automatically. At Infant Jesus Pre School, Jolly Phonics classes in Bhandup are integrated into the daily schedule from the playgroup level onwards. The Jolly Phonics programme teaches children the 42 letter sounds of English through multi-sensory activities — actions, songs, and storytelling — which means even young children who cannot yet hold a pencil confidently begin to associate sounds with letters.

This is a significant advantage for children entering Class 1, where phonics literacy directly affects reading speed and comprehension.

Teacher Training: Why It Matters for Your Child

A classroom is only as good as the person running it. Infant Jesus Pre School also operates as one of the established Pre School Teacher Training Institutes in Bhandup, which means the educators on its own staff are trained to the same rigorous standard they teach others.

The Montessori Teacher Training Institute programme at Infant Jesus Pre School covers child development theory, classroom management, material design, and observation techniques. Teachers who train here graduate with practical, hands-on competence — not just theoretical certificates.

Why Choose Infant Jesus Pre School

Proven curriculum structure — combining Montessori methodology with Jolly Phonics gives children a complete early education foundation, covering both independent thinking and structured literacy.

Qualified staff — every classroom teacher holds formal Montessori training. The school's dual role as a teacher training institute ensures internal standards remain high.

Accessible location — situated at Shop No. 1 & 2, Vakratunda CHS, Plot No. 93, Datar Colony, Opposite Golden Palace Building, Bhandup East, Mumbai – 400042, the school is easily reachable for families from Bhandup and Kanjurmarg.

Small, focused batches — playgroup and kindergarten batches are kept small to ensure individual attention for every child.

Trustworthy environment — the school's name, established reputation, and consistent parent feedback reflect a community that trusts its approach.
